

Revive Your Telephone Revenue

A quick understanding of the difference between Digital, VoIP, and Hosted VoIP telephone systems.

The Basics

	Digital	VoIP	Hosted VoIP
Provides feature-rich capabilities to the tenants		○	●
Does not require large up-front capital investment			●
The only equipment needed is the telephone handsets			●
Allows tenants to easily use handsets outside of the office			●
Allows operator to easily distribute calls between multiple centers		○	●
Extremely cost-effective to keep the system on the “cutting edge”			●
Allows Operator reduce cost as center occupancy level declines			●
Provides Operator with the ability to easily allocated DID’s for any major city in the USA			●
Does not require ongoing support or any IT maintenance	○		●
Does not require an expensive operator console to handle high call volume		○	●
Extremely easy and cost-effective to re-locate telephone system from one location to another	○		●
Provides the Operator with a web-based panel that allows for adds, moves, and changes anywhere, anytime			●
Nimble and easily adaptable to suit the both the current and future needs of each tenant			●

Your Hosted VoIP Solution

Medusa Voice is a hosted enterprise class phone system (*built specifically for executive suites*) that does not require any large up-front investments in hardware. The call quality experience while on the telephone through Medusa Voice will either match or exceed your current voice provider. Medusa Voice

provides the executive suite operator with a solution in which all the telecommunications equipment including the carriers are hosted in a “cloud” and managed **24/7/365** by the Medusa Voice team. The only hardware you need to worry about is the telephone handset plugged into your wall.

Top 5 Reasons to use Medusa

Medusa will revive your revenue, increase client retention and streamline your business center telecommunications technology:

- 1.** Generate new revenue through voice services such as voicemail transcription, sales force integration and soft-phone access.
- 2. NO** longer invest large amounts of money into a phone system that will be obsolete in just a few years. With **Medusa**, pay-per-seat as needed.
- 3.** Expand your virtual office business through the ability to provide your tenants with telephone numbers and a web console anywhere in the United States.
- 4.** Decrease support costs through an easy-to-use, online administration portal.
- 5.** Capture & maintain revenue from leaving tenants by allowing them to maintain their DID's and your telecom package in their new location.
