

it's time to get your business into the future with **medusa voice.**

Medusa VoIP, or Voice-over-Internet-Protocol, uses the power of the Medusa “Cloud”, and high-speed internet connections to make and receive phone calls. It's a better, more flexible way for your tenants to communicate.

- Get started with all new hardware (handsets, switches, medusa, Wi-Fi), installation, training, and the first months service for less than 19k for a center containing 40 tenants.
- Increase profits without adding a single new office though the new features not available on traditional systems.
- Wide choice of Phones including Cisco, Polycom, Grandstream, and many more.
- Unlimited calls - both local and long-distance.
- Decrease costs with the easy-to-use online control panel.
- MedusaVoice is specifically engineered for executive suites.
- Enterprise equipment ensures redundancy, robustness, and crystal-clear quality.
- Grow your virtual office business by providing your service to tenants nation-wide.

Medusa VoIP allows you to connect to your phone system anywhere there's an internet connection, which means you and your employees can access it while traveling or away from the office. Medusa VoIP systems offer the flexibility to expand or decrease your services as your business needs change.

Contact us within the next 10 days to schedule a free telephone system assessment and take advantage of our promotional pricing. We'll review your current system and offer recommendations.

*PS - A
VoIP package
could also save you
thousands of dollars
on your long-distance
phone bills.*

*Call us to find out how you
can start saving today!*
